Introduction: The One Percent Safer Bursary in partnership with IIRSM

The One Percent Safer Bursary is an exciting new initiative by two global leaders in safety, to support the development of risk and safety professionals in five developing or emerging nations in Africa and south Asia.

One Percent Safer is a global movement aimed at promoting the benefits of marginal gains in workplace safety and its vision is to cut the number of lives lost to work-related injuries and illnesses each year by one percent – that's 28,000 worldwide.

All profits from the sale of the acclaimed One Percent Safer book and related products go directly to the One Percent Safer Foundation, which is an independently governed charitable fund created to make the world a safer place to work in.

To achieve its vision, One Percent Safer has a set of charitable objects. These include the provision of practical help in the form of small grants or support with professional education and development to individual safety and risk practitioners.

IIRSM (International Institute of Risk and Safety Management) is a leading professional membership organisation and education charity in risk and safety management and a leader in providing professional education and development to safety and risk practitioners.

So, successful applicants for the One Percent Safer Bursary will receive a year's free membership, at Affiliate level, of IIRSM. This gives them access to a wealth of tools and resources to support their professional journey in safety and risk, including

- IIRSM's brilliant magazine, The Sentinel
- Regular updates on developments in the world of risk
- Professional development opportunities to boost your career
- Networking opportunities to share, learn and make connections
- An excellent mentoring platform for peer-to-peer learning
- And much, much more
